

Floyd Memorial Foundation Endowed Gifts & Naming Opportunities

Individuals may make a gift to the Floyd Memorial Foundation for a specific medical focus, education or fellowship opportunity, or healthcare initiative or gifts may be received to name an area of the Hospital in recognition of an individual or family.

Endowed Gifts

An endowed or restricted gift provides ongoing support for a specific service or focus area determined by the donor. Such endowed programs include scholarships, fellowships, or medical/service areas (i.e., Orthopedic Wing) and ensures the longevity of the endowed program. Generally, the principal amount of the endowment is kept intact while the investment income is available for use, or part of the principal is released each year as determined by the donor, which allows for the donation to have an impact for the endowed program over a longer period than if it were allocated all at once. Stipulations and restrictions may be attached to the use of endowment funds. Individuals wishing to establish an endowment may contact the Foundation office for further information.

Naming Opportunities

Individuals or families interested in ensuring a family member, close friend or family is not forgotten can name an area of the Hospital through a generous gift to the Floyd Memorial Foundation. Such naming areas include the Cafeteria, conference rooms, service areas, children's play area, cardiac catheterization labs, chapel, emergency center, nursing stations, fish tank, flag pole, benches, wall hanging/artwork to name a few.

If you are interested in making an endowed gift or naming an area of the Hospital after a special individual or family, please complete the following information and submit to the Foundation office:
